

## The iEARN Write On Project

This project is aimed at introducing students a range of writing forms that includes, story writing, expository writing, persuasive writing, descriptive, informative writing and poetry. The idea of prompts or starters is used to help students begin with the writing using a relevant graphic organizer from a selection available in the resource section of this project.

- Log into the iEARN collaboration centre, [media.iearn.org](http://media.iearn.org) and search for the Write On forum, you may also go to it directly:  
<http://foro.iearn.org/.1e679a43/>
- Here you will find under different subject headings, are posted the prompts e.g. ‘Que Sera Sera’, ‘Expressions in the Poetic Forms’, ‘The Most Important Thing You Have Ever Learned’ and ‘How Do I Make Friends?’. These are called prompts.
- In pairs or small groups select one of these prompts or topics given in the forum.
- Select 1-2 of the students writing under the topic, read and respond to them.
- Now select another prompt and write on it yourself and post.

Happy Trails.....
